

A Message from Your Principal:

*The object of education is to prepare the young to educate themselves throughout their lives.
~Robert Maynard Hutchins*

Dear Alexander Hamilton High School Families,

Welcome to the Alexander Hamilton Junior/Senior High School website for the 2009-2010 academic year, I am excited about being your principal and working with the wonderful students of AHHS. We have many new and exciting offerings that will increase your child's ability to succeed. The implementation of a professional learning community has been well received. The purpose of the PLC is to provide teachers common collaboration time that will support your child's academic success.

In addition, students in grade 7-11 were scheduled into student advisory groups. Students will meet with their advisors 2-3 times per week. The student advisory periods are assigned to a teacher who will track your child's progress and implement early intervention strategies. If you have any questions regarding your child's academic status, I encourage you to contact their advisor and/or school counselor at (914) 592-8532.

All students and parents should refer to the policies, procedures and general information in our student handbook that was distributed to your child at the beginning of the school year. It is important to focus on the Elmsford Union Free School District's closed campus policy that can be found in the handbook. Every student is expected to adhere to this policy at all times.

In an effort to communicate new initiatives, I will continue to host monthly parent coffee hour evenings. Please refer to Hamilton page for dates and times of these meetings.

Have a great school year!

Sincerely,

Marc P. Baiocco
